*Albert Bichot knows how to reveal the work and dedication of winemaker Ludivine Griveau, the new face of Hospices de Beaune since 2015*

The Hospices estate was created in 1443 and spans over 60 hectares, of which 85% are classified Premiers and Grands Crus. Since 4 years a young and talented women looks after the estate. Through hard work in the vineyards and in the winery, she helps the Hospices de Beaune wines carry on their progression towards the elite of Burgundy.

*Now that Climats (terroirs) of Bourgogne belong to the UNESCO world heritage, Bourgogne wines represent more than ever excellence for fine wines lovers. Hospices de Beaune wines are part of this myth and our website [www.hospices-beaune.com](http://www.hospices-beaune.com) makes this myth accessible to anyone.*
